An insatiable love for learning has always pushed me to be a better version of myself with each passing day. Being multi-disciplined in the arts, I strive to bring that same adaptable mindset every step of the way as a full stack developer. Understanding the process of how and why things work is the spark behind my vigorous curiosity and the mechanism that drives me to deliver on all my objectives quickly, while retaining quality.

SKILLS

HTML5, Javascript, CSS3, Jquery, Ruby on Rails, Haml, PHP, WAMP, MAMP, MAYA, Flexbox, RESTful, MVC, Express, React, MySQL, PostgreSQL, Nodejs, Interactive Design, User Experience, Debugging, Troubleshooting, Visual Arts, Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro, Adobe Audition, Adobe After Effects, Cinema 4D Lite, ZBrush, Sculptris, Geomagic, Haptic Devices, Bilingual, Microsoft Office Full Suite, Customer Service, Team Player, Problem Solver, Efficiency, Intellectual Curiosity
